

INVITED SESSION SUMMARY

Title of Session:

Active learning using ICT for smart education

Name, Title and Affiliation of Chair:

Chair: Dana M. Barry, Research Professor, Clarkson University
Co-chair: Takashi Yukawa, Professor, Nagaoka University of Technology
Co-chair: Kazunori Nishino, Professor, Kyushu Institute of Technology

Details of Session (including aim and scope):

In this session, we define active learning as a learning form that could encourage students to be positive in classes. Therefore, we will welcome any presentations on, for example, educational tools, educational systems, educational environment, teaching methods and evaluation methods, so long as the researches would be related to smart education focusing around active learning using ICT and e-Learning.

The following topics will be welcomed:

Active Learning, e-Learning, Blended Learning, Problem Based Learning, Practical Examples for Active Learning, Practical Examples for Problem Based Learning, Teaching Portfolio, Portfolio Systems, Evaluation Systems and Methods, Pedagogical Models, Management for General Active Learning Using ICT, Learning Objects, Gaming and Edutainment, Online Groupwork

Main Contributing Researchers / Research Centres (tentative, if known at this stage):

e-Help in Japan
